EDUCATION

University of Guelph — Guelph, Ontario
Bachelor of Computing (Co-op), Major in Computer Science — Sep 2025 - Apr 2030

SKILLS

Languages: C, Python, C++, HTML, CSS, JavaScript, SQL
Frameworks: FastAPI, SQLAlchemy, OpenCV, YOLO
Tools: Git, GitHub, Linux, VS Code, JetBrains, pytest, REST APIs
Strengths: Teamwork, Leadership, Customer Service, Time Management, Adaptability

PROJECTS

Sentinel | Python, FastAPI, SQLAlchemy, REST APIs, SQL — GitHub | Live Demo — Aug 2026

- Reduced threat research across 4 intelligence services to 1 workflow by normalizing VirusTotal, AbuseIPDB, URLhaus, and CISA data for 5 indicator types.
- Converted multi-source findings into 4 clear risk tiers by correlating weighted threat signals, helping users distinguish Low, Medium, High, and Critical results at a glance.
- Made investigations repeatable across all 5 supported indicator types by pairing FastAPI endpoints with SQLAlchemy-backed history in a relational database.
- Improved service reliability through 5 safeguards - input validation, caching, rate-limit handling, API error recovery, and automated pytest coverage.

Computer Vision Security Monitoring System | Python, OpenCV, YOLO — GitHub — Oct 2026

- Built a webcam security monitor with OpenCV motion analysis and YOLO object detection in a 4-worker pipeline.
- Turned live detections into auditable 0-100 risk scores using custom polygon zones, time rules, watched-object filters, and SQLite event history.
- Delivered a FastAPI dashboard with annotated MJPEG video, snapshot evidence, system controls, and rate-limited Twilio SMS alerts.

The Pivot Labs Website | HTML, CSS, JavaScript — Live Site — 2026

- Contributed to building and launching a 4-page responsive website - About, Team, Events, and Resources - by implementing reusable navigation and structured content sections.
- Made club information easier to scan by organizing 4 mission pillars, 3 program formats, 7 leadership positions, 6 student resources, and links to 3 social channels.

EXPERIENCE

Summer Camp Counselor — Jun 2025 - Present
YMCA | Mississauga, Ontario

- Delivered daily programming across 3 activity areas - sports, arts, and science - by coordinating plans and responsibilities with fellow counselors.
- Maintained a safe and inclusive environment throughout full-day activities by sharing supervision duties, communicating risks, and resolving issues as a team.
- Kept programs engaging and on schedule by adapting activities for different age groups and relaying real-time updates across the counselor team.

CAMPUS INVOLVEMENT

Project Luminosity | Executive — Instagram

- Collaborated with fellow executives to support career-exploration content and initiatives, sharing ideas and responsibilities to help peers identify practical pathways.
- Strengthened group execution by communicating progress, incorporating executive-team feedback, and adapting to changing priorities across club activities.

Tawazun | Executive — Instagram

- Worked with fellow executives to support Muslim mental-health resources and awareness initiatives, contributing to a respectful and community-focused environment.
- Helped the executive team stay coordinated by sharing responsibilities, offering feedback, and supporting peers across resource and outreach activities.
